Four primary features to demand from a Guest Lodge for your exclusive weekend away that will make it a truly memorable and special getaway.

1. **A venue dedicated to hosting couples:** At the Feathered Nest, we focus on giving couples an opportunity to spend quality time with each other, with no kids (yes, it's fine to get a sitter for this occasion), or any other distractions. Our cottages are nestled amongst the trees and are spaced strategically to allow for total privacy. The dining room is suitably configured for comfortable, "un-crowded" dining.
 2. **Real good food:** Our gourmet meals are "almost famous" as this is one of the areas we pay close attention to. When you make your booking, the questions asked at the time will assist us in establishing what your food allergies, dislikes and special dietary requirements are, for example, vegetarian.
 3. **Activities:** Our focus is on pampered attention and relaxing in privacy and to this end bird watching and walking on the estate fit the bill. An alternative to walking is to take a guided quad ride around the farm, using automatic Quad bikes that are quiet, eco-friendly and easy to ride - for both guys and gals - no previous experience needed. Then, we also offer the service of booking ballooning trips; Elephant back Safaris and tree top Canopy Tours to fill your day or to add to your adventure, all a manageable drive away.
 4. **Friendliness and Hospitality:** Another specialty! As a privately owned establishment, this is our hallmark. Since we cater for couples and small groups we can focus on PERSONALISED SERVICE and hence make it most pleasurable.
